FLAVOUR AI

Where Health meets Taste on your Plate

Team Certified Yappers

PROBLEM STATEMENT

Who faces this problem?

- Home cooks seeking healthy, tasty meals
- Ingredient-limited households
- Diet-conscious users

Why is it important?

- Healthy food seen as bland
- Poor taste → unhealthy habits
- Food waste from misuse

Existing solutions

- Rigid recipe apps
- Calorie-only nutrition apps
- Guess-based AI tools

Gap in the current ecosystem

- Flavor compatibility understanding
- Explainable substitutions
- Personalized health–taste balance

WHY FOODOSCOPE APIS

APIs Leveraged

- RecipeDB
- FlavorDB
- Integrated usage

Data Extracted

- Ingredients
- Flavor compounds
- Pairing relationships
- Recipe mappings

Why it matters

- Flavor-aware intelligence
- Smart substitutions
- Health-taste alignment

What Foodoscope Enables

- Flavorchemistry foundation
- Explainable recommendations
- Reliable food intelligence

INNOVATION AND UNIQUENESS

What makes this idea novel?

- Flavor-first recommendation system
- Health + taste combined in one engine
- Ingredient compatibility analysis
- Explainable AI decisions

Creative Use of Food Data

- Uses flavor compound data for real cooking choices
- Maps nutrition constraints to taste compatibility
- Integrates RecipeDB and FlavorDB together
- Turns static recipes into personalized suggestions

IMPACT

Health Impact

- Better nutrition choices
- Health-aware recommendations
- Sustainable eating habits

Social Impact

- Reduced food waste
- Accessible healthy cooking
- Informed food decisions

Sustainability Potential

- Ingredient reuse
- Smarter grocery usage
- Lower food wastage

Broader Relevance

- Preventive health support
- Food science integration
- Data-driven nutrition

BUSINESS MODEL

Who Pays?

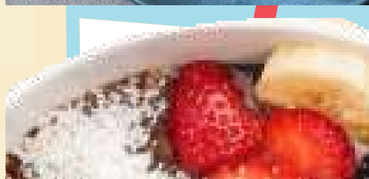
- End users (premium plans)
- Fitness & health-conscious users
- Cloud kitchens & food startups

Revenue Model

- Freemium (B2C)
- Subscription-based premium features
- SaaS for food businesses
- API-based integration

Scalability Potential

- Cuisine expansion globally
- Easy integration with grocery apps
- Expandable to fitness & healthcare sectors



FUTURE SCOPE

Expansion

- Regional cuisine expansion
- Smart meal planning
- Grocery & fitness integration
- Institutional adoption (Hospitals, Schools, Corporates)

Institutional Use Cases

- Bulk meal planning
- Nutrient compliance monitoring

SCOPE OF WORK

Deeper Foodoscope Integration

- Advanced flavor analysis
- Real-time compatibility scoring
- Personalized flavor profiling
